

Fynbos Quilt Festival

create - connect - care

The Beehive Project ✨

Join the hive! Let's come together as a community of creative makers to build a stunning, collaborative beehive, one hexagon at a time!

We're inviting all quilters, crafters, and artists to design a **4½" hexagon** (flat side at the top) and decorate it in any way you like. Your hexagon will be part of a massive art installation, celebrating the beauty of the **West Coast Biome**, from flowers and birds to fossils and insects.

During the festival, the completed hexagons will be **sold or donated** to support community outreach projects. This is your chance to leave your mark and make a difference!

How to Participate

-  **Create a hexagon** (4½" sides, flat edge at the top).
-  Use **fabric** as a base—or surprise us with something unique!
-  Decorate using **any craft technique**—embroidery, beading, painting, appliqué, quilting, mixed media... anything goes! (If using delicate materials, please stabilize your piece.)
-  Finish the edges neatly, and stick to the final size of 4½"
-  **Sign your name** somewhere on the front.
-  Attach a **4" strip of hook-side Velcro 1cm from** the top edge at the back—this is how we'll build our hive!
-  Make as many hexagons as you like—let's fill the hive with creativity!

Please remember to register the hexagons on the Quilt Registration Form available once Quilt Entries open.

Be Part of Something Special!

This will be a one-of-a-kind collaborative artwork, showcasing the incredible talent and generosity of our quilting community. Don't miss the chance to have your hexagon included in the hive!

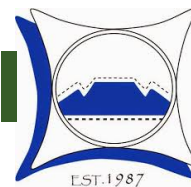

-  **Deadline:** 19 September 2025
-  **Drop-off Location:** To be confirmed on Quilt Entry Form.

Let's build something beautiful, meaningful, and full of heart - together!
